## **HRTLND Companies Expands Eastern Iowa Operations with New Walford, Iowa Facility**

**(WALFORD, IA)** HRTLND Companies is proud to announce a major milestone in the continued growth of its Eastern Iowa operations with the opening of a new office and warehouse facility in Walford, Iowa.

The new location brings together Heartland Finishes, Heartland Door & Frame, and D.A. Bunch Co. under one roof — creating a more connected, efficient, and collaborative operation designed to better serve commercial construction partners across Eastern Iowa.

More than a relocation, the new facility represents the next phase of HRTLND’s long-term investment in the region and its commitment to delivering best-in-class service, craftsmanship, and responsiveness to clients and partners.

“This move is about strengthening how we work together,” said Scott Bleich, CEO of HRTLND Companies. “By bringing Heartland Finishes, Heartland Door & Frame, and D.A. Bunch together in Walford, we’re creating stronger collaboration between teams, improving communication, and sharing expertise across divisions — all of which translates into a better experience and better outcomes for our customers.”

The centralized facility enhances operational efficiency, increases flexibility between divisions, and positions HRTLND for continued growth throughout Eastern Iowa. Recent growth has included expanded finishing, framing, painting, door and hardware services, along with increased collaboration between regional teams. The expanded footprint will support project coordination, material staging, prefabrication capabilities, and faster response times for customers across the region.

“Our goal has always been to build something bigger than individual divisions,” said Mickey Steufen, Director of Operations for Heartland Finishes – Eastern Iowa. “This facility allows us to operate as one unified team while continuing to deliver the quality, reliability, and service our customers count on every day.”

**A ribbon-cutting will be held on Tuesday, June 23, 2026 from 4:00-6:00pm.**
